

Founded in 1777, Crown Paints has a long and illustrious history with over 200 years of knowledge, passion and expertise. Part of the Hempel Group since 2011, a world-leading coatings supplier, Crown Paints has an ever-growing network of decorating centres and is home to over 1100 colleagues.

## Easy to use

For Crown Paints, the Talos ATS system is easy to use, intuitive, and conducive to teamwork. For example, Talos ATS allows multiple users, each with individual access to their vacancies, increasing ownership over incoming CVs and the recruitment process. In addition, the ease of advertising a vacancy with multiple job boards via a one-click solution and then seeing which job boards candidates have applied from is a huge help.

### Talos ATS: The benefits

Talos ATS significantly benefits the People Operations and recruitment teams at Crown Paints; among its numerous benefits is the ability to list vacancies across multiple job boards, with access to popular job boards such as CV Library and Total Jobs.

Another key benefit is the ability to move candidates into different progressive stages, triggering automated emails, which saves admin time while nurturing the candidate. It's also hugely beneficial to Crown Paints that Talos ATS links directly to their careers page, and with integrations like DocuSign, the company's entire offer process is now aligned inside Talos ATS.

“““

*It's an easy system to use and one that doesn't require a lot of training for new managers. We wouldn't do without it.*

10 mins saved per advertised role – 40+ hours over a year

280+ hours of administration time saved in a year

Streamlined hiring processes

Improved team working capabilities

# The **Talos360** solution:

## Best-in-class customer service

The Talos360 support team is always available to help and consistently quick to respond. Any query the Crown Paints HR team has ever had about Talos ATS is resolved swiftly, with issues dealt with professionally and in a spirit of helpful collaboration.

Indeed, the Talos360 Success Teams go out of their way to explain clearly and succinctly why problems have arisen and how Crown Paints, as a team, can prevent them from happening in the future.

## Time savings

Thanks to the multi-poster within Talos ATS, Crown Paints have saved at least 10 minutes on every job posted (approximately 20 a month).

In addition, by accessing CVs and candidates on one system rather than logging into a plethora of others, they've easily saved 30 minutes of administration time per vacancy.

## Standout features

- ✓ Candidate shortlisting capability
- ✓ Talent pool provision
- ✓ Interview progression pages

“““

*Talos ATS is a great system to use for recruitment for both the UK and Ireland. It's efficient, easy to use, time-effective and vital to our recruitment.*
